| [GitHub](#) | [My Portfolio](#)

EDUCATION

Shaikh Zayed University

2022-2025

BCS – Bachelor of Computer Science

Experience

1) **Software Engineer** @ EvolvFit

2025 Aug – 2025 Oct

Primarily focused on developing and maintaining mobile application using React Native, while also worked on the frontend and backend as well.

2) **Mobile App Developer** @ HimalByte

2025 May – 2025 Jul

Work on cross-platform mobile application using React Native and Supabase for backend. Used firebase for Notifications.

PROJECTS

DevSync | [Demo](#) | [GitHub](#)

DevSync is a collaborative platform designed for developers to connect and collaborate on projects.

- It features user profiles, project listings, teams, developers ranking and a real-time chat system.
- Its full stack project all built with Next.js, Tailwind CSS, Supabase DB and framer motion.
- A real time developers collab platform where you can join or create projects and complete tasks.

Ocean of Games | [Demo](#) | [GitHub](#)

A game platform which is a clone of popular RAWG website and also powered by Rawg api. Where you can search and view from a ton of games.

- Search Functionality, Sort Games, Game Details, Dynamic Routing and Shimmer Loading Effect.

Threads Clone (Mobile App) | [Demo](#) | [GitHub](#)

A full-stack cross-platform mobile app built with react-native and expo

- Developed a full-featured Threads clone with real-time post updates using Convex as database.
- Integrated Clerk for secure user authentication and session management.
- Designed a sleek UI replicating the Threads app experience using modern React Native components and smooth animations.
- Implemented features like posting, commenting, and dynamic feed updates.

ShanAI (Mobile App) [Demo App](#) | [GitHub](#)

Ask ShanAI anything, a cross platform mobile app. ShanAI is intelligent conversational, image generating and analysis application.

- Built with React native/Expo, Clerk, SQLite and integrated multiple generational AI APIs.

Note: I have built 20+ full-stack web and 15+ mobile app projects. Please visit my [portfolio website](#) for details.

Certificates and Awards 1) **Meta Frontend developer specialization certification** | [View Certificate](#)

- This specialization certification includes 9 courses.

Skills

Programming Languages: JavaScript, TypeScript

Frameworks: React.js, Nextjs, Tailwind CSS, Redux, Node.js, Express.js, Mongoose

Database: MongoDB, MySQL, Supabase, Postgre, Convex, Prisma
